CORA

Live-guidance during emergency calls

CORA keeps support where call-takers need it most: in their windshield, but not in the way.

Listening in real time, CORA proactively validates the address and guides call-takers using your agency's SOPs.

GAS LEAK RESPONSE SOP

IMMEDIATE ACTIONS

☐ ADVISE CALLER TO EVACUATE THE AREA

☐ DO NOT ALLOW USE OF ELECTRICAL SWITCHES

☐ DISPATCH FIRE RESPONSE

☐ NOTIFY GAS UTILITY EMERGENCY LINE

+15%

HIGHER SOP ADHERENCE

Real-time visibility into every call with instant alerts for critical events

Faster, more consistent **call taking**

Head-up display for **less tab switching**

Reduces cognitive **load** on every call

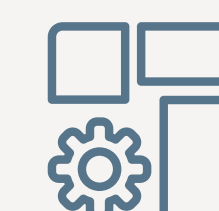

Contextual Guidance

Adapts as the call unfolds. Precise reminders tailored to the incident, location, and your agency's procedures, surfaced live during the call.

Live SOP checklists

Delivers real-time, step-by-step guidance so call-takers always follow the correct procedures for every call.

Fully customizable widgets

Displays critical information in a configurable "windshield" tailored to your center's exact SOPs, workflows, and priorities.
